Chipmunk Corner: Parent & Student Guidelines

Our goal is to provide a fun, safe, and rewarding ski and ride learning experience!

- **Be ready to learn:** Children should arrive well-rested, fed, hydrated, and ready to participate. Chipmunk Corner is a ski and ride learning center, not a traditional daycare.
- **Arrival time:** Please arrive by **8:00am**. Late arrivals could be rescheduled, depending on availability.
- **Parent Responsibility:** One parent or guardian must remain on the mountain throughout the lesson in case of an emergency.
- **Personal belongings:** Please collect everything at the end of the day.
- **Lesson focus:** Please avoid distracting your child during the lesson so they can focus on learning.
- **Restroom independence:** Children must be able to use the restroom independently.
- **Participation:** If a child refuses to participate, they will wait indoors until their parent or guardian arrives. Parents will have 30 minutes to encourage their child to participate; if unsuccessful, the child must be checked out.
- **Communication:** If your child becomes ill, refuses to ski or ride, or has behavioral difficulties, we will contact you through our paging system or message board at the bottom of the lifts.
- **Age and ability:** Please provide accurate information about your child's age and skill level to help us create the best experience for everyone.

Does your child have any food allergies or dietary restrictions? Please inform our staff before the lesson.

Thank you for helping us create a fun, safe, and respectful environment for our students and staff!
